Price	\$12,195.00
Sales Price	\$11,695.00

Description

PANTHER

It runs in the family. Sleek edges, fierce styling.
Hauling has never been easier.

RADIAL TIRES & SILVER MODS

Radial Tires improve safety, stability and helps cut down on fuel consumption compared to the common, Bias Ply.

The Silver mod wheels are a durable wheel that resists corrosion. Topped off with chrome center caps, rounding out a balanced and sleek look.

STONE GUARD

One of the first things people notice on a trailer is the stone guard and it has a TON of visual appeal. At 16" and 24" tall, our stone guards are ready to shield your trailer from whatever rock, mud and other road debris that the front of your trailer may encounter.

LED BRAKE LIGHTS

An 18" strip light that looks attractive and exaggerates your intentions to either turn or stop. An upgrade to reverse LED back up lights is also available.

LED CLEARANCE LIGHTS

LED Clearance lights will give you the confidence that other motorists will notice your presence. These lights demand less of your tow vehicles power supply, keeping you moving through night like a beacon of safety and efficiency.

ALUMINUM FENDERS

Keeping true to our metal exterior uniform, our trailers are equipped with rust free aluminum fenders to reduce weight and add an attractive touch.

DOUBLE SEALED DOORS

By placing a seal on the door frame and a seal on the steel frame of the trailer we can keep rain, snow and dust from getting past the doors. This side by side seal is the answer and it just makes sense!

LED INTERIOR LIGHTS

Whatever way you choose to power your 12v electric, all LED interior lights will brighten up your trailer's interior so you can work at all hours of the day. To give an even greater sense of daylight inside of your trailer, add a white vinyl ceiling liner.
